

Øversigt / Plan

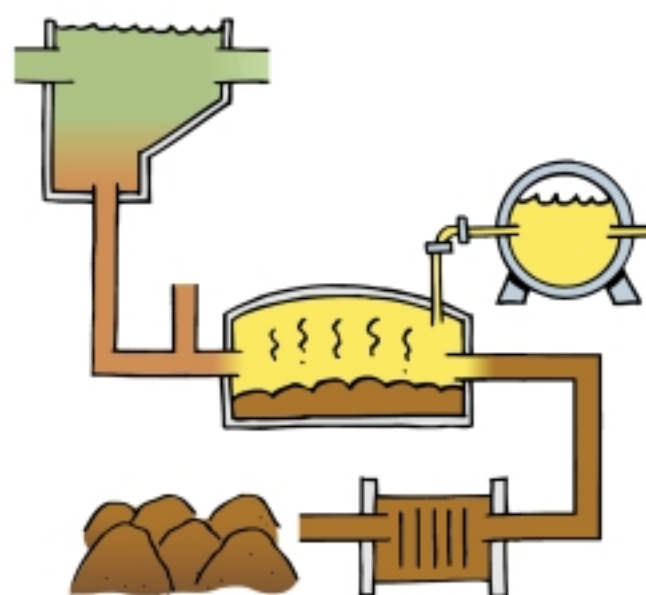

- ① Styring og overvågning
Control and monitoring
- ②-③ Mandskabsbygninger og garager
Personel facilities and garages
- ④ Ristehus og sandfang
Screens and grit chamber
- ⑤ Indløbspumpestation
Inlet pumping station
- ⑥ Forbeluftningstanke
High rate activated sludge unit
- ⑦ Mellemløringstank
Intermediate clarifier
- ⑧ Regnvandstank
Catchment basin
- ⑨ Filterpumpestation
Filter pumping station
- ⑩ Biologiske filtre
Trickling filters
- ⑪ Langtidsbeløftningstanke
Extended aeration activated sludge unit
- ⑫ Efterløringstank
Secondary clarifiers
- ⑬ Kontaktfilter
Contact filter
- ⑭ Iltningsbygværk
Aeration unit
- ⑮ Koncentreringstanke
Sludge thickeners
- ⑯ Rådnetank
Digester
- ⑰ Gasbeholder
Gasometer
- ⑱ Gasgenerator
Gas motor generator
- ⑲ Slamafvandingsanlæg
Sludge dewatering unit
- ⑳ Slamsilo
Sludge silo
- ㉑ Kemikalieanlæg
Chemical storage and dosing unit
- ㉒ Driftslaboratorium
Plant laboratory

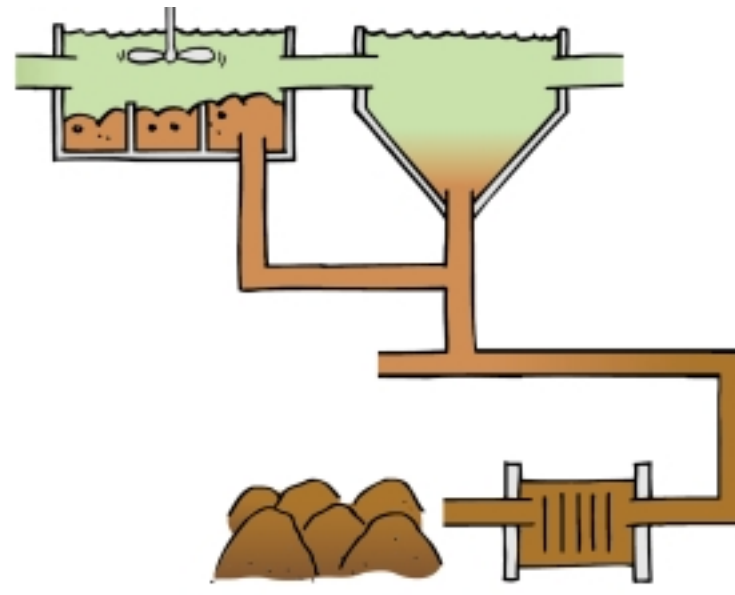

Riste og Sandfang
Screens and grit chamber

Slam fra 1. rensesettrin til rådnetank og kompostering
Sludge from primary treatment to the digester and then compost production

Slam fra 2. rensesettrin til kompostering
Sludge from secondary treatment to compost production

Biogas fra rådnetank til gasgeneratorer
Biogas from digester to gas motor generators
